Portugal

**Pr. Michele Chiumenti**  
Universitat Politècnica de  
Catalunya, Spain

#### CONFERENCE TOPICS

- Engineering design for Additive Manufacturing.
- Multimaterial, new and innovative materials for Additive Manufacturing.
- Additive Manufacturing parts/processes modeling and simulation.
- Advances in Additive Manufacturing technology.
- Additive Manufacturing product quality control, assurance and qualification.
- Additive Manufacturing process optimization, planning, monitoring and control.
- Post-processing operations.
- Additive Manufacturing standards and certification.
- Additive Manufacturing applications.
- Health, Safety and Environment considerations.
- Mass customization.
- Industrial engineering and management Impact.
- New business models.
- Product liability and intellectual property protection.
- Artificial intelligence, machine learning, automation and digitalization.
- 4D Printing.
- Education, training and research strategy.
- Additive Manufacturing challenges.
